

Bridgestone inaugurated Fleetpoint An Dai Phat in Hai Duong

Hai Duong - On 21 July 2017, Bridgestone officially inaugurated the Truck/Bus Tire Service Center - Fleetpoint An Dai Phat at Quynh Khe hamlet, Kim Xuyen ward, Kim Thanh district, Hai Duong province. The inauguration ceremony of Bridgestone's 16th Fleetpoint welcomed the participation of more than 150 guests including local authorities and transportation enterprises in the North of Vietnam.

The Truck/Bus Tire Service Center keeps pace with the economy growth

In recent years, Hai Duong province has become one of 7 provinces in the Northern key economic zone with a growth rate higher than the national average across the country. In 2016, total production in the province has maintained a relatively high growth rate, estimated to increase by 7.9% compared to 2015. In 2017, Hai Duong set the target growth for Gross Regional Domestic Product (GRDP) up to over 8,5%. Therefore, the number of trucks, containers and buses has been increasing significantly to meet the demand for passenger and cargo transportation. This is also a strong foundation for Bridgestone to confidently bring the Family channel system - Fleetpoint back to the region with a more powerful and modern level.

With a strategic location on the National Road 5 - the main trading route connecting Hai Phong port and Hanoi with other provinces in the country, Fleetpoint An Dai Phat is a convenient one-stop for tire check and change services. An Dai Phat has an area of over 700m², 30m wide facade, which can serve large number of trucks/buses in the same time. This is also one of the few 24-hour-open tire service centers, minimizing waiting time for the drivers.

Fleetpoint An Dai Phat provides full-package solutions to maximize the benefit for the transportation business, such as Bandag retread solution, reasonable costs and flexible payment support. Moreover, An Dai Phat provides on-site tire change service to the large transportation enterprises in the region.

As a Fleetpoint, in addition to providing high quality tires and tire rims, advanced services such as wheel balancing also promise to be available this year. With hotline 0989 795 285 operating

About Bridgestone Corporation

A journey for safety with Bridgestone

The development of the transportation industry has marked a significant progress in recent years and has become the economic lifeblood of the country. However, the increasingly complex and dangerous traffic situation has become one of the huge concerns for the society. Understanding this, Bridgestone has always made effort to ensure the safety on road by developing an international standard for Fleetpoint model with proper tire care. Moreover, we have always developed community project in all the business activities. In that, “Cung Bridgestone về nhà an toàn” – “Drive home safe with Bridgestone” providing the flashing stickers is to increase the visibility of truck and bus drivers at night time throughout the country. Through over 1 year, the campaign has reached over 30,000 vehicles to deliver the stickers. With key message “Drive home safe”, we not only bring safe to the drivers but also corporate with the transportation enterprises to limit the risk on road.
